

Louisiana Operations

At Mosaic, we help the world grow the food it needs.

The Mosaic Company is the **world's leading integrated producer** of concentrated phosphate and potash – key minerals in crop fertilizers.

Fertilizers are responsible for **40-60% of the world's crop yields** and play a vital role in increasing food production and land use efficiency in agriculture and livestock production – both critical to ensuring a sustainable food future.

Our **Louisiana phosphate operations** play a critical role in feeding the world. With over **500 employees** and contractors in St. James Parish, our team works daily to promote a positive safety culture, and to constantly improve the health, safety and environmental performance at our facilities. Our employees also make meaningful contributions of their time, knowledge and resources to local organizations to help make our community stronger.

Our Louisiana phosphates operations play a critical role in feeding the world.

COMMUNITY INVESTMENTS

Fast Food Farm

Mosaic is a long time investor in the Fast Food Farm. A volunteer driven project teaching tomorrow's leaders about food production, conservation and natural resources. The farm educates students K-12 in the Southeast region of Louisiana on "Where Does your Food Come From?" and teaches about the complex system it goes through from farm to table.

Greater Baton Rouge Food Bank

This key food agency in the region serves the hungry in Baton Rouge and St. James Parish by providing food and educational outreach.

St. James Parish Schools

Mosaic supports local schools, our future workforce, through various initiatives including Teacher Appreciation, Teacher of the Year, Leadership Development and other key school programs.
